Your Aesthetic Practitioner is a Qualified Nurse specialising in Facial Aesthetics, Facial Rejuvenation and skin care.

Your practitioner has extensive experience using injectable materials for facial aesthetics. In addition has been trained with the respective product companies, this includes one to one training to an advanced level.

BOTOX® is an aesthetic non-surgical treatment for those who want a rejuvenated and yet natural look.

BOTOX® is not alive but is a protein, which weakens and inactivates muscles. A firm favourite of celebrities. This procedure helps to **reduce fine lines and wrinkles** for correction mainly on the forehead and for crow's feet.

BOTOX® (Anti-wrinkle injections, Bocouture, Azzalure, Vistabel, Xeomin and Dysport)

- One area **£180**
- Two areas **£230**
- Three areas **£290**

Soft facial rejuvenation "Liquid Lift"
(A combination of Anti-wrinkle injections and fillers)

A combination treatment of BOTOX® and/or Dermal filler to lift brows, cheeks, lower face, chin and tighten the jaw line. For that rejuvenated look. **Price based on individual needs.**

BOTOX® is also used to treat Hyperhidrosis (excessive sweating of underarms, palms and feet). The severity of your treatment and areas for treatment will be determined by a simple painless test. This treatment is priced from **£450**.

Youthful Hands Rejuvenating those aging hands, giving a youthful appearance. POA

Dermal Fillers can be used anywhere on the face for the correction of fine lines, in particular, naso-labial fold (the lines running either side of the nose towards the corners of the mouth), lip lines and lip volume. The broad range of dermal fillers for treatment of wrinkles, facial contouring, lip enhancement and skin rejuvenation, makes it possible to tailor treatments to each individual's wishes.

- 1ml syringe **£250**
- Cheeks and facial volume, priced individually

Mesotherapy is the skin revitalisation treatment that you simply cannot do without. Mesotherapy is a skin boosting treatment which nurtures the skin in a way that creams and other moisturisers simply cannot do. Mesotherapy promotes the production of healthy skin at cellular level by attracting and releasing water when needed. It boosts skin elasticity leaving it looking smoother and feeling firmer and more toned. Skin vitality and lustre is restored and skin condition improved. Mesotherapy is for the reduction of localised fat, cellulite treatment, face and neck rejuvenation. Mesotherapy can be applied to any part of the body,

such as: face, chin, arms, saddlebags, love handles, hips, abdomen, buttocks, legs, the décolletage area and any area of unwanted fat accumulation.

13. Lip enhancement
14. Chin augmentation

Chemical Peels have grown massively in popularity over the past two decades and can be very effective treatment to rejuvenate and tighten the skin, treat sun damage, reduce lines and wrinkles and deal with abnormal pigmentation problems. They are also a very powerful treatment for acne and can be very effective where more conventional treatments have failed to adequately control this condition. Please ask for further information and pricing.

Natural Skin Regeneration and Scar Repair Therapy

Dermaroller™ Therapy can significantly improve the appearance of:

- Acne scars
- Aged and sun damaged skin
- Facial and décolleté lines and wrinkles
- Stretch marks

Dermaroller™ Therapy provides advanced skin micro-surgical needling, a procedure that stimulates the skin to regenerate and repair itself naturally and safely, creating smoother, brighter, and healthier, younger-looking skin.

This treatment is £350.

Maintaining the skin's vitality becomes more of a challenge as we grow older and healthy, toned skin, free from lines and imperfections is hard to achieve.

But thanks to Restylane we can take steps to make it easier, so our looks reflect the age we feel rather than the age we are.

There is a 'stand alone' consultation fee of £40.

Restylane is an injectable treatment that contains hyaluronic acid.

Youthful skin is rich in hyaluronic acid (HA), a substance that binds water, hydrates the skin, and promotes all-important softness and fullness. But as we age the HA in our skin becomes less efficient and leads to loss of volume and the tell-tale signs of ageing.

Restylane instantly boosts the skin's hydration system and restores youthful volume by supporting the skin's structure to delay signs of ageing. Restylane also encourages healthy, glowing skin; it stimulates the production of collagen and improves skin elasticity. It lifts and smoothes away lines and restores your skin tone and youthful volume without loss of facial expression.

The beauty of Restylane is that its safety and efficacy is clinically proven and this is what sets it apart. Restylane is produced by a unique and patented process involving minimal chemical interference. As a result the hyaluronic acid gel in Restylane closely resembles our own HA which means Restylane is safe and the treatment results are long lasting.

*It's your skin,
who else will look after it?*
